

Hotel of Desires

Actually we all want it; walk off the beaten track. Swim against the stream. Because of fear of being ostracized from our environment, we do not give in to that feeling, that lies in every human being. It is for this reason that we live our lives like preprogrammed robots. In fact, our entire life is made up of the same phases. Break the rhythm successfully is only given to a few of us. The rest lacks courage and daring.

The main characters in *Hotel of Desires* struggle with the same problems. Swim against the stream seems harder than expected. Until they meet during a vacation on a sunny tourist island and it appears that no one stands alone. Best friends come to know this business, which would otherwise remain hidden. Tough women suddenly change into little girls. They find out that there's more than that eternal perfect picture, which

actually only consists of materialism. They all have the same similarity: their desires.

About the ebook

Hotel of Desires is an erotic story in diary form about making choices. It is written fluently, stylish and gives a contemporary look at the society in which we live. It is a striking, clear and evocative story about a group of women who would like to make that one extra step but where the courage is lacking. Unknowingly these women hang on to the only man in the group. Not because he looks good or has a lot of money, but because of his lifestyle.

HQ/e's philosophy

Being different from the others. Distinguished. Swim against the stream. Waking off the beaten tracks. It seems difficult, but it is not. Publications by HQ/e make just an extra step to have the story grab the reader. The abnormal is normal. The impossible is within reach. Make it happen. Make it negotiable. Make it possible. Because it's too easy to go heavy subjects out of the way. It is the mainstay of the HQ/e.

Author	Paul Henriquez
Editor	Bianca Kroon
Language	Dutch
